39. Respondents responded that it had identified 704 emails that were responsive to those requests, but that Petitioner Plowman would be required to pay $3,210.00 to obtain copies of those emails. Implicit in the response was the position of the Respondents that those emails would only be produced in hard copies and not in a searchable electronic format.

40. Despite the fact that emails can simply be put on a computer disk at little expense, Respondent Blaine County School District insists that Petitioner Plowman pay for printing of those emails. However, Petitioner Plowman needs to obtain these emails in electronic format so that they are electronically searchable.

See Exhibit 1, attached hereto.

57. Respondents did not provide any records in response to this request, claiming that it did not have a document that listed phone billing records for individual office phones, but noting that the document could be created from its existing phone system by its technology department

65. Exhibit 7 requests records for a longer period of time, and requests all phone records.

66. Exhibit 7 requests "the overall district office phone records from Sept. 1st to [January 26,

2016]" which presumably would not require any manipulation, categorization, or other IT work to produce.

The Blaine County School District Verizon Wireless Mobile Phone Accounts

67. At all relevant times herein, Respondent Blaine County School District maintained an account or accounts with Verizon Wireless for mobile phones for Respondent GwenCarol Holmes, John Blackman, and Heather Crocker.

68. Upon information and belief, Verizon Wireless maintains detailed calling records for each month in question, and these available to the Blaine County School District. These records can be obtained without cost to the Blaine County School District and can be accessed on-line by any "authorized person" for the Blaine County School District.

The detailed phone records of Verizon Wireless for Respondent Blaine County School District are public records within the meaning of I.C. §74-101(13) in that they contain "information relating to the conduct or administration of the public's business prepared, owned, used or retained by Respondent Blaine County School District.

77. Upon information and belief, the automated record keeping system of Verizon Wireless can provide the information sought by requesters without significant expense if requested to do so by Respondent Blaine County School District.

78. Petitioner Plowman requested copies of the billings for all mobile phone records for Respondent Holmes for the dates September 1, 2015 to December 16, 2015, and the mobile phone records of John Blackman and Heather Crocker for the dates October 1, 2015 to December 16, 2015. 83. Upon information and belief, a detailed report of the use by Respondent Holmes of her mobile phone (summarized in Exhibit 2) is available to her without charge, but has not been requested by Respondents.

Petitioner Browning's Good Faith Attempts To Urge Respondents To Comply With The Idaho Public Records Act

84. Following up on the response to the initial December 16, 2015 public records request, Petitioner Browning wrote to Respondent Holmes concerning the fact that the detailed phone records for John Blackman and Heather Crocker had been provided but not those for Respondent Holmes. See email #1, Exhibit 11, attached hereto.

85. Respondent Blaine County School District's Business Manager/Treasurer, Mike Chatterton, responded to Petitioner Browning advising her that she had been provided with the actual billing from the cellular phone provider that was in the possession of the Blaine County School District.

86. Upon information and belief, Mr. Chatterton made no attempt to obtain an electronic copy of any records from the cellular provider, Verizon Wireless.

87. Petitioner Browning responded to Mr. Chatterton informing him that she had spoken to a representative of Verizon Wireless who informed her that detailed calling records existed for each month in question, and were available to the Blaine County School District.

88. These records could be accessed on-line by any "authorized person" for the Blaine County School District.

89. The correspondence between Petitioner Browning and Mr. Chatterton continued and she advised him that Verizon Wireless had told her that there was no possible way for anyone to block their detail calls from being viewed by an "authorized person" on the account. A copy of the email confirming that detail records existed for the number used by Respondent Holmes, (208) 481-1795, is attached hereto as Exhibit 12. See also Exhibit 2, pages 2 through 5, attached hereto.

90. Petitioner Browning was informed by Verizon Wireless, and therefore alleges upon information and belief, that every employee's itemized calls are available online every month and can be viewed by an "authorized person."

Actually, there still is a problem.

What the document is lacking is the 'details' portion of GwenCarol Holmes' phone bill, as follows the bills for John Blackman and Heather Crocker.

Could you please include that in the public response document?

Regarding: Two Public Records Requests

- Request dated: 1/25/2016 Timestamp 16:39:64
- Request dated: 1/27/2016 Timestamp 10:25:40

Requesting:

- All email correspondence during the period of 11/24/15 to present between Prosecuting Attorney Jim Thomas and the District Leadership Team
- All email correspondence during the period of 11/24/15 to present between Prosecuting Attorney Jim Thomas and the Board of Trustees
- All email correspondence during the period of 11/24/15 to present between Prosecuting Attorney Jim Thomas and District Administrators
- All email correspondence during the period of 11/24/15 to present between Prosecuting Attorney Jim Thomas and Adam King
- All email correspondence during the period of 11/24/15 to present between Prosecuting Attorney Jim Thomas and GwenCarol Holmes
- All email correspondence during the period of 11/2015 to 1/2016 between Prosecuting Attorney Jim Thomas and Superintendent GwenCarol Holmes or Attorney Adam King

The emails that are privileged are those strictly between School District Attorney Adam King and School District staff.

According to policy, the costs to you for the remainder of the above-referenced records requests of approximately 704 emails are as follows:

- Estimated hours to extract, organize, process and print by Director of Technology: 24 x $45 per hour = $1,080
- Estimated hours to review and redact for personal/confidential information by John Blackman: 35 x $60 per hour = $2,100
- Estimated paper and printing of pages after the first 100: 604 x $.05 = $30.20

Two hours of staff time has already gone into compiling information for this request.

Total estimated prepayment of fees due for completion of request: $3,210

The Blaine County School District does not receive an itemized phone billing record for the main Administrative phone number of (208) 578-5000. We can provide this report in a readable format that will take an estimated nine hours of labor. Please send a check in the amount of $488.57 made payable to Blaine County School District. If the production takes less than the estimated nine hours total (seven hours billable) the balance will be refunded back to you.

Dr. GwenCarol Holmes, Dec. 23, 2015

On December 16, 2015 a Public Records Request was filed with BCSD concerning phone records for you, among others. The response posted on the district website is not dated, but it does provide part of the requested information.

Detailed records are provided for John Blackman and Heather Crocker, but not for you. Those details could easily have been posted at the same time the others were, but have been omitted. Was this an oversight? If so, would you please remedy that situation right away?

Please see the pertinent sections of ID State Law on Public Records Requests, pgs. 15-16.

http://www.ag.idaho.gov/publications/legalManuals/PublicRecordsLaw.pdf

Excerpts:

A public agency has three (3) working days from the date of the receipt of the request to grant or deny the information.

. . . . .(agency is allowed to) notify the individual in writing that more time is needed, and then grant or deny the request in whole or in part within ten (10) working days following the request.

If there is no response to the request, it shall be deemed to be denied within ten (10) working days. The 180-day period to seek court relief begins at that point.

It is required that a written denial be provided.

. . . . failure to respond in writing does not extend the time period for response.

The written denial for all or part of a request for information must state the statutory authority for the denial.

The original PRR was submitted on Dec. 16, 2015. Ten (10) working days from that date is Dec. 31, 2015. However, no written notification has been filed by BCSD that it needs longer than the standard three (3) days to respond. Indeed, the partial information that was provided was supplied within the standard three (3) days. Therefore, it appears that this omission of the detailed phone records for you must have just been a mistake.

Will you please correct that mistake before the ten (10) days passes, when the request will be deemed "denied" and a legal statutory reason must be given for that denial?

Thank you for your anticipated prompt response,

Barbara Browning

Barbara,

The Statute also addresses existing documents the governmental agencies have. What I provided to you in the public information request is the actual billing from our cellular phone provider. There are several employees who do not have the associated call list history as was provided for both Heather Crocker and John Blackman. Dr. Holmes is one of those employees. What was provided in the public records request is the only document that the School District has.

Mr. Chatterton,

Please note that this email includes a copy to Ms. Pamela Plowman, the originator of the Public Records Request of Dec. 16, 2015 for the phone records of GwenCarol Holmes and two other BCSD employees. Ms. Plowman concurs with what I am saying to you.

You stated in your email to me (below) that you "provided the actual billing from the cellular phone provider" and "what was provided . . . is the only document that the School District has." I'd like to remind you of the broad scope of what is covered by Idaho Public Records Request Law: Per the Manual prepared by ID Attorney General Wasden, dated July 2015, pg. 5:

"Public record," as defined by the Idaho Code, is an extremely broad concept. It "includes, but is not limited to, any writing containing information relating to the conduct or administration of the public's business prepared, owned, used or retained by any state agency, independent public body corporate and politic or local agency regardless of physical form or characteristics." "Writing" means information maintained in many forms, including typewritten or hand written documents as well as pictures, maps, tapes, magnetic or punched cards, and computer media. E-mail and texts are considered public records and are subject to the same laws as any other public record.

You also stated "There are several employees who do not have the associated call list history as was provided for Heather Crocker and John Blackman. Dr. Holmes is one of those employees."

I spoke to Verizon this morning. The BCSD Verizon account number is available on the summary pages provided as public records, and Dr. Holmes' cell phone number is also.

I now possess an email from that Verizon employee who pulled the phone records for Dr. Holmes' phone. He said there are detailed calling records on the bills for each month in question, for the phone number that belongs to Dr. Holmes' cell phone. He told me he was reading from the actual bills that BCSD received. Of course, I told him the circumstances surrounding this request, and that I was definitely NOT asking him to reveal any specifics about the itemized calls listed. I simply wanted to know that those lists do exist, and whether they were included with each month's bills. His email to me specifically addresses those lists of itemized calls for the months of

September, October and November 2015.

It appears that what you stated in your email to me this morning is simply not true. Do you have an explanation for this?

If you have suddenly discovered that you made a mistake, and those itemized call records are available after all, for Dr. Holmes cell phone, I strongly recommend that you comply with the legally binding Public Records Request, immediately. Post those records on the BCSD website. Notify Ms. Plowman and me, by email, of that posting.

Thank you for your prompt attention to this matter,
Barbara Browning

Mr. Chatterton, Dec. 29, 2015

This is a continuation of our conversation about the Public Records Request filed Dec. 16, 2015 for the complete phone records of Dr. Holmes, Mr. Blackman and Ms. Crocker, employees of BCSD.

You made the following statement in an email to me Dec. 24, 2015:

The Statute also addresses existing documents the governmental agencies have. What I provided to you in the public information request is the actual billing from our cellular phone provider. There are several employees who do not have the associated call list history as was provided for both Heather Crocker and John Blackman. Dr. Holmes is one of those employees. What was provided in the public records request is the only document that the School District has.

After I spoke to Verizon that day, I sent you this response:

I now possess an email from that Verizon employee who pulled the phone records for Dr. Holmes' phone. He said there are detailed calling records on the bills for each month in question, for the phone number that belongs to Dr. Holmes' cell phone. He told me he was reading from the actual bills that BCSD received. Of course, I told him the circumstances surrounding this request, and that I was definitely NOT asking him to reveal any specifics about the itemized calls listed. I simply wanted to know that those lists do exist, and whether they were included with each month's bills. His email to me specifically addresses those lists of itemized calls for the months of September, October and November 2015.

In that email, I also asked you to please explain this apparent discrepancy between you and Verizon. You have not responded.

Today I again spoke to Verizon. Their employee said there is no possible way for anyone to 'block' his detailed calls from being viewed by an 'authorized person' on the account. Every employee's itemized calls are available, online, to an authorized person, every month. Verizon provides itemized call lists for every cell phone on the account, without exception. Since BCSD has those records and you are an 'authorized person' on the account, you have access to the call details for Dr. Holmes and are required to release them per the Public Records Request. You could have provided them at the same time you provided the details of Mr. Blackman's and Ms. Crocker's calls.

I spoke to a clerk at the Blaine County Magistrate Court this morning. She instructed me on the process of filing a motion for a judge to review this entire matter and probably compel BCSD compliance with Idaho State Law regarding Public Records Requests.
I will begin that process this week.

Both Wood River Valley newspapers will be notified of all the details of this matter and supplied with all relevant documents, including pertinent emails.

All BCSD Board Trustees will be similarly informed.

Please immediately provide the remainder of the information requested on Dec. 16, 2015; the calling details for Dr. Holmes' phone.
