

## Dave Wagers - Boise School District Trustee Profile

I support *several educational priorities*:

- ✓ **Keeping our Boise School District Strong**
- ✓ **Engaging All Families Effectively with the Boise School District**
- ✓ **Ensuring College and Career Readiness for our Students**
- ✓ **Supporting our Teachers and our Negotiation Process**

I believe I have proven to be an exceptional Boise School District (BSD) Trustee. As the newest member of the board, I was appointed to the BSD Board after being selected by the current Trustees from a highly qualified group of 15 applicants. Since that time, I have dedicated myself to forming strong working relationships with all BSD Trustees and other experts in the education field. I have added value by asking lots of questions, reviewing budgets, and educating myself on the operation of a large school district. After serving on the board for less than a year, I was named Chairman of the Trustee Development Committee, requiring me to direct and implement the training that Trustees receive.

**I believe that one of the biggest differences I can make in our community is to ensure that each child gets the best education possible. I have made the study of the “business of school” my recent focus in life. I have learned that schools run on tight budgets and have dedicated staff that will do whatever it takes to aid the education process. I consider teachers the greatest assets of our school district and that our goal of educating students for college and career readiness requires first listening to the many stakeholders involved in a child's education. My business experience has proved useful in serving on the district’s facilities committee and ensures that the district manages the public's money and assets efficiently to deliver a first class education.**

### **Educational Background**

- Attended BSD Schools Grades 1-12 (Cole, Fairmont and Capital)
- University of Idaho - BS Finance
- Anser Public Charter School Board President (2012-14) – Board member for 8 years
