

Monica Walker Candidate Profile

Age: 44

Occupation: National Senior Loan Officer

Photo: Attached PDF

I'm a wife of a Boise Firefighter, mother of two talented and sweet girls, friend to folks from all walks of life, involved member of this community, and an optimist for the future of Boise and our schools.

I'm a successful loan officer for ENG Lending and I'm a talented interior designer. My focus will be creating an environment where every child has the opportunity to succeed. This requires smaller classes, rich curriculum, diverse electives, advanced placement, and career-technical, courses.

I support fiscal responsibility but I'm mindful that a top-notch education infrastructure often requires digging deeper into our pockets to increase the community investment in the district. I strongly support an anti-bullying campaign for all (differently-abled/special needs, ethnicities, gender, LGBT, race, religion) to ensure a safe learning environment.

I live in a union household and believe the Boise School District needs to continue viewing the BEA as a partner in the delivery of a superior education. Our teachers are the most talented in the state and they deserve to have the best wages, benefits, and working conditions in the state and should rival the large urban districts throughout the Northwest.

I am a dedicated, kindhearted, tireless leader. I believe I will partner well with the current Board of Trustees to continue to keep our schools strong and move the Boise School District forward into the future.
