

Registered Teacher Apprenticeship Program

How BYU-Idaho is positioned to support this
Idaho teaching program.

Melissa Green, Teacher Preparation, BYU-Idaho

The teacher preparation programs at BYU-Idaho are set up in a system where a core set of courses serves all programs and meets all Idaho Standards for Initial Certification of Professional School Personnel

10 Credits of Student Teaching for all programs

17 initial licensure programs consisting of a mix of

30/20 major/minor
and
45 credit composite

20 Credits of Education Core
common to all teacher preparation programs.

Teacher Preparation has nested degrees which allow for flexible and buildable options.

14 Credit Certificate in Educational Foundations

60 Credit Associate Degree in Educational Foundations

120 Credit Bachelor's Degree in a Specific Program leading to Idaho Teacher Certification

OR

in General Studies with an education focus (without student teaching)

Most of the Education Core is offered online. Recently added courses are anticipated to be online in 1-2 years.

College of Southern Idaho's Associate of Applied Science Degree and Registered Teacher Apprenticeship Program (Approved Related Technical Instructional Provider)

PRESENTED BY
DR. TRACEY MEYERHOEFFER
& BILL BRULOTTE

Don't Settle. Teach.

- **Registered Teacher Apprenticeship and AAS Degree**
Have you served as a Paraprofessional and aspire to become a Certified Teacher?
Explore a Teacher Apprenticeship route to earning a teaching certification. You will collaborate with your school districts to gain teaching pedagogy while working in a classroom. This program can roll into credits for a candidate to earn an AAS degree from CSI.
- **Non-Traditional Educator Preparation Program (NTEPP)**
Teach full time while earning your Idaho Certification.
If you hold a bachelor's degree, now is the perfect moment to step into the world of full-time teaching while earning your Idaho teaching certification. Our program is designed to provide you with unparalleled support.
- **Teacher to New Certificate (TtN)**
Add a new teaching endorsement or increase your professional learning.
If you are already an Idaho teacher and want to add an endorsement, or earn recertification credits while you grow your skills, we can customize a program for you!

Registered Apprenticeship

LC STATE

Introduction

LC State would love to partner with you to help individuals obtain the necessary educational and pedagogical components to become certified teachers. Our program is designed to be flexible in the approach and can be completed for credit, non-credit, or a combination of both.

Program Components

- Review of Content Competency
- Program of Study
 - Portfolio
 - Coursework
 - Assessments

Content Competency

- Co-determination of educational components that are necessary for the applicant through interviews, review of work history, Professional Development, and Prior Coursework. After which an Individualized Plan of Study is created along with a projected timeline for completion.

Plan of Study

- Candidates can work toward completion through a combination of portfolio completion, coursework, and content assessment to meet the academic requirements necessary for the plan.
- Candidates can complete these requirements for credit, or they can complete without credit, and should they choose purchase the credits later for a fee.

Portfolio

- Each identified competency (course) can be completed by providing evidence of meeting the objectives necessary through a portfolio.
- The portfolio consists of these evidences along with a narrative and annotations of the evidence provided.
- Individualized coaching and mentoring are provided during the process.

Coursework

- Candidates may choose to take existing coursework to demonstrate competency.
- For those who are completing without credit, a flat fee is assessed for each enrollment term. Credit can be added at any time.
- For those who register for credit up-front tuition is collected.

Assessments

- Candidates may choose to challenge course content and are permitted to take assessments for applicable courses.
- Assessments are also available for the Idaho Comprehensive Literacy Components.
- We are also happy to assist with Common Summative Assessments and PRAXIS preparation.

Additional Supports

- Employers also have access to request specific Professional Development to assist candidates as well as current teachers.
- Faculty Mentors are assigned to each candidates and have flexible meeting times.

Other Services

- **Mastery-Based Pathway**
 - Flexible approach for individuals who would like to obtain initial certification. Available either as a non-traditional pathway (2-3years), or and Alternative Pathway (1 year). Also available for the Teacher to New Certificate option.
- **PACE**
 - Accelerated pathway toward elementary certification.
- **Online Program**
 - Applicable for elementary, and some secondary pathways.
